Skills

Programming Languages: Dart, Java, JavaScript
Databases: Firebase, SQLite, MySQL

Frameworks: Flutter, Android SDK, React.js, Next.js
Tools: Android Studio, Visual Studio, GitHub
Architecture Patterns: MVC, REST

Experience

Arham Corporation – Flutter Developer

May 2026 – Present

- Developed and delivered new business features for a production Order Management System, including offline ordering, GPS route tracking, reimbursement, and field-sales workflows, improving operational efficiency for mobile users.
- Optimized API integration, local caching, and application architecture, reducing screen load times by 25% and delivering a more responsive user experience.
- Strengthened application stability by refactoring legacy code, implementing comprehensive exception handling, and improving network error management, contributing to an estimated 35% reduction in runtime errors and support-reported issues.
- Collaborated with backend developers and QA teams to deliver scalable REST API integrations, resolve production issues, and maintain high-quality releases through clean, reusable, and maintainable code.

Vizograph Solutions Pvt. Ltd. – Front-end Developer

September 2022 – April 2026

- Supported the development and maintenance of data visualisation platform's website built with React.js and Next.js, contributing to UI updates and bug fixes..
- Worked with existing React/Next.js codebases to implement small frontend changes, resolve UI issues, and improve responsiveness and consistency across web interfaces.
- Assisted developers in troubleshooting frontend issues, testing fixes, and maintaining production website through debugging and code-level investigation..
- Collaborated with other developers during maintenance, gaining practical experience with JavaScript, React.js, Next.js, Git, and production frontend workflows.

Projects

Arham OMS

- Contributed to the development of an enterprise Flutter-based Order Management System by implementing features including offline ordering, GPS location & route tracking, tour management, and reimbursement workflows.
- Optimized API integration, offline data synchronization using SQLite, and overall application performance while improving error handling, stability, and maintainability of the codebase.
- Enhanced multiple application modules by building responsive, reusable UI components and integrating features such as barcode scanning, PDF generation, and robust network error handling to improve user experience.

ApproveRX

- Contributed to the enhancement of an existing Flutter-based pharmacy application by redesigning major user interface screens and improving responsiveness and overall user experience.
- Implemented pagination across product and listing modules to support paginated REST APIs, improving scalability and efficient data loading.
- Refactored existing code by optimizing API calls, strengthening exception handling, improving state management, and enhancing application stability and maintainability.

Play Store: https://play.google.com/store/apps/details?id=com.arhamcorp.approverx&pcampaignid=web_share

Hash: Gaming Café Booking

- Platform that allows users to discover gaming cafés, book gaming slots, join tournaments, and purchase gaming-related products.
- Contributed to UI development by creating multi-page sections, improving layout responsiveness, and refining overall user experience.

Play Store: <https://play.google.com/store/apps/details?id=com.hfq.hash>

PeakFit – Fitness Tracker

- Developed a Flutter-based fitness app to log workouts and diet, track steps, and monitor fitness progress.
- Integrated Firebase Authentication, Cloud Firestore, SQLite, and SharedPreferences for secure data storage and offline support.
- Included features like BMI calculator, fat percentage analysis, custom workout/diet plans, and goal tracking.

Education

Bachelor of Engineering – Information Technology

Ahmedabad Institute of Technology

Sept 2022 – May 2025

CGPA: 7.87

Diploma Engineering – Information Technology

Government Polytechnic, Ahmedabad

Aug 2019 – June 2022

CGPA: 8.59
